To estimate your total film transfer cost you may use the following example:

# of reels	Reel length	Total Footage
2	50 ft (3-inch reel)	100 ft
1	200 ft. (5-inch reel)	200 ft
3	400 ft. (7-inch reel)	1200 ft
	<b>Total Footage</b>	<b>1500 ft</b>

Estimated total footage: 1500 feet

Total Cost (@ \$0.12 per foot): \$180.00

The exact total footage will be calculated based on the number of frames actually transferred, so the final total will not equal the estimated total.
